

Intra V30 HD: Smart Pickup

SL No	Smart Features of Intra V30
1	Gear shift advisor – vehicle advises the customer in which gear to drive for getting better fuel efficiency
2	Eco switch – vehicle understands that customer is looking for better fuel efficiency & changes its “operating mode”
3	Digital instrument cluster
4	TCR of 5.25 m even with an 8.8 feet long load body

SL No	Pickup Features of Intra V30
1	70 HP power
2	4 cylinder, 1496 cc (1.5 litre) engine
3	8.8 feet long load body
4	Strong leaf spring suspension – 5 leaves in the front, 8 in the rear
5	Power steering - EPAS
6	37% gradeability
7	185 R14 tyres
8	Acceleration/Pickup – 0-60 kmph in less than 14 seconds

Intra V30 HD: Top 5 Benefits to Customer

5

- 1. High Quality Body Construction:** A sophisticated manufacturing process and the use of high quality corrugated steel sheet ensures that the trusted quality of Tata Motors is retained even in the High Deck body
- 2. No Extra Expense for modification:** The High Deck body comes at a very economical price, helping save big, right from the time of purchase
- 3. Low Down Payment:** Vehicle finance also includes the cost of the High Deck body, thus reducing the initial investment
- 4. Business Ready from Day 1:** With a ready High Deck body, Intra V30 goes straight to work - saves time and earns profit from Day 1
- 5. Reliability:** Now not just the vehicle but also the High Deck body stays protected under our standard warranty of 2 years or 72000 kms.

Intra V30 HD: Tech Specs

Specifications	Intra V30	Intra Advantage
Engine		
Engine Capacity	1496cc, 4 cylinder	<ul style="list-style-type: none"> Intra has a 4 cylinder engine designed to do all the duty cycles of SPUs & deliver higher fuel efficiency. The torque of Intra V30 is spread over a wider range which means fewer gear shifts & lesser driver fatigue
Max. Engine Output	70 HP @ 4000 rpm	
Max. Torque	140 NM @1800-3000 rpm	
Dimensions		
Wheel Base	2450 mm	<ul style="list-style-type: none"> Intra V30 has a big loading area which provides opportunity to carry more load. Smaller footprint & TCR enable easy maneuverability while parking in tight spots & driving on congested or narrow lanes.
Overall Length	4460 mm	
Load Body (l x b x h)	8.8 x 5.3 x 5.3 feet	
Min. Turning Circle Radius	5.25 m	
Steering		
Type	Electric Power Assisted Steering (EPAS)	For similar duty cycles, steering effort of vehicles with EPAS is much lesser compared to vehicles with HPAS resulting in lesser driver fatigue. EPAS system will also provide better steering control in higher speeds as compared to vehicles with HPAS.

Intra V30 HD: Tech Specs

Specifications	Intra V30	Intra Advantage
Suspension		
No of leaf springs	Front – 5, Rear – 8 (over-slung)	<ol style="list-style-type: none"> 1. More no. of leaf springs in V30 mean that there is no need to waste time & money on after market fitments 2. The over slung mounts in Intra give more clearance between the axle and the chassis enabling good ride on a bumpy road or while carrying heavy loads.
Tyres		
Tyres	185 R14	Optimum tyre size for carrying heavy load & for getting better fuel efficiency
Ground clearance	175 mm	Higher ground clearance in Intra provides opportunity to drive easily on uneven roads
Performance		
Maximum Gradeability	37%	Intra V30 has best in class gradeability . This makes driving it much easier on hilly roads / ghat sections or steep flyovers
Warranty		
Standard warranty	2 years or 72,000 kms	Comparable standard warranty
Value Enhancers		
Mileage Enhancers	GSA + Eco Switch	In comparable duty cycles, Intra will have better fuel efficiency due to GSA & Eco Switch
